

Sunshine State Digital Network Fall Workshop

This FREE one day workshop will introduce participants to the Digital Public Library of America (DPLA). Participants will leave with a better understanding of what DPLA is, how to use it as a resource, and about Florida's involvement with DPLA through the new Sunshine State Digital Network (SSDN). Learn more about how to get involved and prepare your metadata for inclusion. We welcome anyone in the Florida library and museum community to attend.

Orlando—Thursday, November 16, 2017, 9 a.m. to 4 p.m.

John C. Hitt Library-University of Central Florida
Room 223
